REPUBLICANS MAKE CLEAN SWEEP

ENTIRE DEMOCRATIC TICKET DEFEATED.

Heavy Vote Polled. Harlan Loses County By Nine Votes.

Garrard county again swings into the Republican column, by majorities ranging from 9 to 217. Local conditions accounts for the varied and different size majorities, the county judge race holding the center of attraction. One of the heaviest votes ever polled in the county, was that polled last Tuesday. Judge A. D. Ford, democratic nominee for county judge, was defeated by Forest Stapp, his majority being 217. The county clerk race was an interesting one and it was not until a late hour Tuesday night that it was found that W. A. Doty the Democratic nominee, was defeated by J. B. Bourne, by only 29 votes. E. B. Ray whose nomination for assessor was unopposed in the primary, met defeat by a majority of 91 votes. Mr. A. T. Scott of Bryantville, being the Republican victor.

Hon. Jay Harlan, of Boyle, the Democratic nominee for State Senator polled the entire strength of his party, but fell short by 9 votes in what seemed to be a Republican land slide in the county. It will be gratifying to his friends over the district, however, to know that he is elected by the handsome majority of 750 votes, his home county, Boyle, giving him practically 700 majority.

Six democrats in this county had no opposition and polled the strength of their party. They are: J. Hogan Ballard, for Representative; G. C. Walker, County Attorney; A. K. Walker, Sheriff; David Ross, Jailor; S. H. Anderson, Coroner, and Miss Jennie Higgins, County Superintendent of Schools. Two Democratic Magistrates are elected having no opposition. They are: J. H. Clark, District No. 1, and Logan Ison, District No. 2. Districts number 4 and 5 each elect Republican magistrates, Harrison Ray being elected in number 4, while D. M. Carter seems to be the elected in number 5, defeating his opponent, J. M. Metcalf, by a small majority.

With a Republican judge elected it gives a majority of the Fiscal Court to the Republicans.

The men elected to the various offices of the county are all good citizens and should make the county splendid officials.

While much interest was taken in the election last Tuesday and a large and heavy vote polled by both sides everything passed off quietly, and not a complaint was heard from any source.

The Constitutional Amendment seemed to have been overlooked as only 185 votes were cast, 139 voting yes and 46 voting no.

BIG Y. M. C. A. DRIVE

Set For Next Wednesday Nov. 14th.

Preparations are being rapidly made for the big Y. M. C. A. drive over the entire county next Wednesday, to raise the \$1,000 as the quota allotted to this county, a similar amount having been raised several weeks ago.

Two interesting articles appear in this issue of the Record upon the importance of this work, one of them being an extremely interesting letter from one of our county boys, who has been in the service of Uncle Sam for the past three years, and who hopes to see service at the front in a few months.

The chairmen of the various departments are naming their precinct workers and that the county will be covered thoroughly goes without saying. Do not turn a deaf ear to their appeals, which means so much to the boys in the army. Geo. Pershing says the greatest thing we can do for victory to our arms in this war, is to abundantly equip the Y. M. C. A.

"OLD COUNCIL"

Snowed Under With An Avalanche Of Votes. Judge Frisbie Loses Out.

The race that created the most local interest last Tuesday was the council race and for a time during the day Tuesday the county candidates were apparently not in it at all, the "ward healers" devoting most of their time in the three town precincts to this interesting race.

The "Old Council" headed by Mayor Davidson made a game fight but early in the day it was seen that the "New Council", headed by Mr. J. M. Duncan, had a slight advantage which was held until the polls closed, the final count of the vote showing that they had won by a majority of about two to one. Duncan's majority over Davidson being 141, while the leading man on the winning board had a majority on the losing board by 161 votes.

Judge E. W. Harris ran like the race horse emblem he used on his ballot, defeating Judge Frisbie by 66 votes out of a total of 392 votes cast. Judge Harris was at one time our city judge and filled the office acceptably and his friends who rallied to his support last Tuesday are proud of the splendid record he made in the race.

His defeated opponent, Judge Frisbie, has also made Lancaster one of the best city judges she has ever had and of course his friends are naturally chagrined at his defeat. He was appointed by Governor Stanley about one year ago, upon the resignation of Judge Prather.

The recently elected council, headed by Mayor Duncan, are J. B. Conn, Ed Hughes, Jack Adams, Joe Kelley, Harry Anderson, and H. C. Bailey. They will be sworn in the first Monday night in January.

DIRT BROKEN

For New Government Building.

Mr. A. W. Lane, of Chicago, who has the contract for the new Post Office arrived in the city last week, and with a large force of local help he is rapidly excavating for the building, which is to be, under the contract, completed by June 1918. Mr. Lane tells us that the work will be pushed as rapidly as the weather will permit and that most of the labor employed to complete the building, will be local help which he says, can be gotten here.

Mr. Lane has just completed government buildings for Little Falls, Minn., Loganport, O., and Marion, Ky.; the one at the latter place being almost identical with the one at Lancaster. He tells us the location of the building is an ideal one and when completed will be an ornament to the city and a source of joy and convenience to the public.

AMERICAN SOLDIERS KILLED

For Attacks Under Cover Of Barrage.

Armed forces under the American flag and commanded by Gen. Pershing had their first clash with German soldiers on the French front last Sunday night. Our troops had been taken to the first trenches where practically no fighting had been for several weeks, more for instruction than for fighting, but evidently the presence of U. S. troops had angered the enemy and they launched a desperate attack to overcome them. Three of our soldiers were killed, five wounded and twelve taken prisoners or at least are missing. One German soldier was taken prisoner. The Teuton attack came in the form of a heavy barrage fire, which isolated a salient of the American trench, and apparently left a small force of Americans at the mercy of their enemies.

That the American soldiers fought gamely is shown by Pershing's report of a prisoner being taken by them. How some of his troops escaped bringing this German back with them is not told in the brief dispatch of the American commander.

Don't Burn So Much Money!

How would you enjoy a furnace that saves a third or more of your fuel?

And how would you like to get more heat from the smaller quantity of fuel than you formerly did from the larger quantity?

Here's a furnace that will do just that thing—save fuel and give more heat for the fuel consumed. It's the

The Original Patented Pipeless Furnace

It does away entirely with a complicated system of long pipes and many registers and sends heat directly up into the house through one centrally located register. Then, the heat circulates from room to room—displacing cooler air which is drawn down and reheated—till every nook and cranny is warm as toast. Yes, and this free, unhindered circulation takes place in an amazingly short time and gives an equal degree of warmth in all the rooms.

The Caloric Furnace is doing this in thousands of happy homes.

Hundreds of delighted Caloric owners write letters of unstinted praise, telling how comfortable they are and how much less coal, coke or wood they burn than formerly.

The Caloric is a wonderfully efficient furnace. It may be installed in an old house as well as a new, and even where there is no cellar. You really ought to know about it. Come in, let us show you some of its many advantages—the patented triple casing that keeps the cellar cool, and its guaranteed fireproof that has 500 square inches more radiating surface than other fireproofs. Remember the Caloric is absolutely guaranteed to give you more and better heat, and to save 35% of fuel or no sale.
